

## S220-W

# BestPack™ Stretch Wrapper with Scale

Semi-automatic pallet wrapping machine

Our BestPack™ S220-W is a high-performance model with the added specialty of a **built-in digital scale** that will weigh loads as they're being wrapped. It's designed to handle light-to-heavy duty pallet wrapping applications and has integrated load cells that will increase warehouse productivity. With comprehensive technology, this machine will even help save on film costs per load. The BestPack™ S220-W is a great economical asset to have for businesses looking to save on time and preserve the quality of their products.

CBM Systems BestPack™ Stretch Wrapper

## See what the BestPack™ S220-W can do for you!

1. Increase film stretch up to 220% with motorized film pre-stretch.
2. Shorten wrapping cycle time to as little as 1 to 1½ minutes.<sup>1</sup>
3. Corner compensating Dancing Bar combats film tearing.

### Plug and play—Start wrapping right away

Affix film to your pallet—then press start. In many cases, operators won't even need to adjust wrap settings between loads.

### Improve load integrity and reduce shipping damage

Consistent performance and excellent load stability during transport keeps your load tightly secured more effectively than hand-wrapping.

### Boost productivity and save on time

The ability to weigh as you wrap improves your packaging process and ensures the utmost efficiency.
